

Australia Cyber Security

Incident Response

We attach great importance to security issues and welcome all security researchers to report potential security vulnerabilities to us to improve the security of our products and services.

Vulnerability Response and Disclosure Process

Monitor and assign received vulnerabilities in a timely manner
Verify the vulnerability and confirm the exploitability and impact
Provide effective fix solutions or risk remediations measures
Investigate and confirm the complete scope of affected products
Review and publish the security advisory for the security vulnerability
Report Vulnerabilities

You can report vulnerabilities via telephone through our customer service department, or via email. The following are the detailed reporting methods:

Email: sales8@tuoshi.cn

Phone number: +8618682083659

Attention

Although we encourage investigation of potential security breaches, we cannot tolerate any activity that may interfere with legitimate users or may violate applicable computer abuse, cyber security and data protection regulations. Therefore, the following activities are prohibited:

- Modification or destruction of data
- Service disruption or degradation, such as DoS
- Disclosure of personal, proprietary or financial information

Response Time

After receiving the vulnerability you reported, we will send you vulnerability response related information within 48 hours based on the platform you used to report the vulnerability, as follows:

For vulnerabilities reported via email, we will send you a vulnerability response notice,

information confirmation and feedback related to the vulnerability via email. The progress of the vulnerability's solution development will also be continuously updated through email as soon as possible.

For vulnerabilities reported via the phone, we will send you a vulnerability response notice, information confirmation and feedback related to the vulnerability via email (gathered during the phone call). The progress of the vulnerability's solution development will also be continuously updated through email as soon as possible.

We will provide you with an update on the vulnerability **within 180 business days.**

* Note: Actual vulnerability response time may vary depending on the risk level and complexity of the vulnerability.

Product Support Policy Overview

We do our best to provide continuous security updates for our IoT products. The security updates generally include the latest security patches, security vulnerability fixes, and other security improvements. We will maintain the security updates for **at least 3 years from the launch day of certain device models.** The updates are available directly through **the manufacturer sending.**

*Security updates cover product hardware (firmware), pre-installed software, software that implements necessary product functions, and external control software.
